Happy New Year!

Elizabeth Siemens, Principal

I hope your families were able to get some rest and enjoy the two-week holiday break!

The students had worked so hard over the month of December on the Christmas Concert and did such a wonderful job. Thank you again for supporting us with this huge endeavour.

The month of January has a lot to offer from the start of trimester 2 of STEAM Academy, basketball and archery starting up, whole school ski days, and Professor Wow coming.

In addition to fun events, teachers will also be completing a number of mid-year assessments in literacy and numeracy as well as preparing comments for report cards that are handed out at the end of January.

In this month's assemblies, students are discussing the broad topic of Boundaries, starting with looking at responsibility and then moving on to leadership followed by consent and risk-taking.

Please check backpacks as permission forms start going home for various extra-curricular and STEAM Options.

A Season Worth Remembering

Science Fair

On December 3, 2024, students showed off all that they had explored over the past months during STEAM Project time on Fridays. Everything from bouncy balls, growing mold, sturdy chairs and learning about photography were on display. Great work everyone!

12 Days of Christmas, Food Bank Edition

Thank you for all the donations to the Food Bank! We will be taking the donations to the Athabasca Food Bank mid-January.

Family Christmas Dinner

What a wonderful spread! Thank you to Pembina Hills Natural Gas Co-op, Polak Farms and chefs Tim and Shawna for a wonderful meal.

A Fairytale Christmas Carol

So much effort and time went into making the Christmas Concert one for the record books! From learning lines to making the set and costumes, it was a team effort. Thank you and great work everyone!

School Office Hours

8:00 AM - 4:00 PM
